We, the undersigned, desire to make public our support of the boycott of Klein-Dickert Co., Inc., Paint Division. We ask that everyone refrain from doing business with Klein-Dickert during the current labor dispute.

We recognize that Klein-Dickert is represented in labor relations by the law firm of Melli, Walker, Pease & Ruhly, S.C. This law firm has a reputation for fostering strikes and causing friction in labor-management relations. The name of the Melli Law Firm has become a synonym for discord and strife. We stand opposed to the tactics of the Melli Law Firm. It is harmony in labor relations that benefits the community. The community only suffers when working people are not treated with dignity. We view the actions of Klein-Dickert and the Melli Law Firm as a threat and an affront to us and all working people.

We will not patronize Klein-Dickert as long as a dispute exists and we will encourage other individuals and businesses to join this boycott.

NOTE: This represents only a small percentage of actual signers. The declaration and pledge is continuing circulation, and additional signatures will be added at a later date.
